Software Development

Internship in Zephyr

Technologies & Solutions Pvt Ltd.

10-03-2026 to 10-04-2026

Workshop on Financial

Markets and Investment

Awareness

National Institute of

Securities Markets (NISM)

06-11-2025 to 07-11-2025

I regularly engage in coding on platforms such as Hacker Rank.

Python course completed in Udemy

Objective

To obtain an entry-level position as a Full-Stack Developer where I can apply my skills in **React.js, Python, SQL and MongoDB** to develop scalable and efficient web applications while continuously learning new technologies.

Education

Bachelor of Computer Applications (BCA), Rajadhani Group of

Institution, Graduate in 2026, Current CGPA: 7.85/10

Projects

Food Explorer (Deliver website)

Tech Stack: React.js, Node.js, Express.js, MongoDB, HTML, CSS, JavaScript
Developed a full-stack food exploration web application using React.js for the frontend and Node.js/Express.js for the backend. Built RESTful APIs to retrieve and manage food-related data. Used MongoDB to store user and application data efficiently. Implemented features such as user login/register, restaurants, and category-based filtering. Designed a responsive and userfriendly interface using HTML and CSS.

Student Management System (CRUD)

Tech Stack: Python, SQL

Developed a Student Management System to perform Create, Read, Update, and Delete (CRUD) operations on student records. Designed and managed a MySQL database to store and retrieve student information efficiently. Implemented Pythonbased functionality for adding, updating, deleting, and viewing student records.

Applied input validation and error handling to improve data accuracy and reliability.

Languages

English, Tamil, Kannada, Hindi
